SKILLS

- **Tools & Platforms:** Power BI, Excel, GCP BigQuery, Google AppScript
- **Programming:** SQL, Python (Pandas, NumPy, Matplotlib, Seaborn)
- **Automation:** AppScript Automation, API Integration, Workflow Automation
- **Data Analytics:** Marketing Analytics, Financial Analytics, Churn Analysis, Market Basket Analysis, EDA, Time Series
- **CRM & Reporting:** CRM Implementation, Process Optimization, Dashboard Automation
- **Project Management:** Jira, Reporting Management, Cross-Functional Collaboration

PROFILE SUMMARY

Tech-driven **Senior Business Analyst** with 1+ year of experience in **Data Analytics, Process Automation, and Business Intelligence**. Skilled in developing **automated data pipelines, interactive dashboards, and scalable reporting systems** using **Power BI, SQL, Python, GCP BigQuery, and AppScript**.

Strong expertise in **ETL automation, API integration, and CRM optimization**, transforming raw datasets into actionable insights that improve decision-making across **Marketing, Finance, and Operations**. Adept at bridging technical and business needs to drive efficiency, accuracy, and data-driven growth.

WORK EXPERIENCE

Analytics Avenue

Senior Business Analyst | Jul 2025 – Present

- Designed and deployed **automated BI systems** using **Power BI, GCP BigQuery, SQL, and AppScript**, cutting report preparation time by 70%.
- Built **ETL pipelines** to automate data ingestion from APIs and databases for marketing and finance dashboards.
- Led development of company-wide **audit, churn, and financial reporting dashboards** to support strategic planning.
- Managed data governance, performance tracking, and workflows through **Jira** and automated reporting tools.

Business Analyst | Aug 2024 – July 2025

- Created **self-refreshing marketing dashboards** integrated with APIs for ad and client performance analytics.
- Automated CRM workflows, increasing lead tracking accuracy and response efficiency by 25%.
- Supported automation of reporting operations through **BigQuery data pipelines** and **AppScript triggers**.
- Contributed to end-to-end reporting frameworks connecting campaign insights with revenue impact.

EDUCATION

B.E. - Electrical & Electronics

2019 - 2023

University College of Engineering, BIT
Campus, Tiruchirappalli
CGPA - 7.68

HSC

2019

Vidya Mandir Hr. Sec. School, Ariyalur
Percentage - 77.5%

SSLC

2017

Sri Krishna Hr. Sec. School, Cuddalore
Percentage - 89.4%

CERTIFICATION

- Data Processing Specialist - Aspiring Minds - [link](#)
- Data Analytics - Analytics Avenue
- Excel Certification - Great Learning - [Link](#)
- Electric Vehicle Charging System - Coursera [Link](#)

Data Analyst Intern | Sep 2023 – Aug 2024

- Gained practical exposure to **SQL, Power BI, Excel, and Python-based automation**.
 - Assisted in building prototype dashboards and EDA models that enhanced decision visibility by 20%.
 - Developed foundational automation scripts and visual analytics projects across industries.
-

PROJECTS

Marketing Performance Automation Dashboard

- Developed **dual dashboards** (Ad-side & Client-side) to track ad spend, ROI, and conversion metrics.
- Automated data collection from Meta & Google APIs into Power BI for real-time insights.
- Enhanced campaign optimization efficiency by 23% through automated performance reporting.

Churn Prediction & Sales Automation Dashboard

- Designed **Python + BigQuery-based churn model** to monitor and predict customer retention patterns.
- Automated data refresh using API triggers, reducing manual reporting by 80%.
- Improved accuracy of retention tracking and boosted sales insights through predictive analytics.

Automated Audit & Financial Reporting System

- Built an **end-to-end automated Power BI dashboard** integrating audit logs and financial KPIs.
- Automated daily updates with **AppScript & BigQuery ETL scripts**, improving reporting accuracy.
- Enabled real-time audit tracking and enhanced financial visibility for leadership decisions.

Workflow & Employee Performance Automation

- Created an automated performance tracking system for employees using **Power BI + AppScript**.
 - Integrated HR datasets via BigQuery for live workforce analytics, improving accuracy by 18%.
-

CryptoTracker: Real-Time Market Analysis

- Developed a **cryptocurrency analytics dashboard in Power BI** using live market data APIs.
- Visualized price trends, volatility, and market cap, improving analysis efficiency by 35%.

Revving Efficiency: Electric Vehicle Data Insights

- Built a **Power BI dashboard** analyzing EV adoption and manufacturing patterns.
- Improved insight accessibility by 30%, supporting policymakers and manufacturers.

Market Basket Analysis

- Conducted **association rule mining and pattern analysis** using **Python (Pandas, Mlxtend)**
- Identified cross-selling opportunities, improving inventory management by 15%.

Retail Sales Analysis & Insights

- Performed sales trend and product analysis using **Python EDA**.
- Identified high-margin products and optimized discounts, boosting profits by 10%.

ACHIEVEMENTS

- Promoted to **Senior Business Analyst** within a year for leadership in automation projects.
 - Built and deployed **company-wide Power BI & BigQuery reporting ecosystem**.
 - Conducted **Power BI & Marketing Analytics workshops** under Analytics Avenue's learning programs
-
